Grow your Implant Practice through Immediate Molar Placement

Jake Wolf DDS

Dec
11
ThurTop Golf Overland Park
Overland Park, KS

Course Description:

Join Dr. Jake Wolf for a two-hour lecture on immediate molar implant placement and restorations. Dr. Wolf will break down specific drilling protocols and strategies to reduce stress and improve success with immediate molar implant placement in A, B, and C molar sockets. He will discuss the rationale and techniques for prosthetic socket sealing to preserve papilla and set implants up for long-term biological and mechanical success. This lecture will provide a literature-based formula for designing and preparing your prosthetics.

Course Objectives:

By the end of the course, clinicians will be able to:

- Understand the rationale for immediate implant placement
- Learn proven site preparation techniques for all three classification molar sockets
- Identify the best prosthetic components and materials for immediate implants
- Select the best biomaterials to use in immediate molar implant placement

ABOUT THE PRESENTER

**Jake Wolf**
DDS

Dr. Jake Wolf is a general dentist based in Las Cruces, NM, where he provides comprehensive care with a strong focus on implants, endodontics, autologous growth factors, and digital dentistry. A 2014 graduate of UMKC School of Dentistry, he has been placing and restoring implants and teaching implant dentistry for years bringing art to his procedures. He is a board member of MINEC America and a member of both the American Academy of Implant Dentistry and International Academy of Dental Implantology. Dr. Wolf integrates advanced technologies like CBCT, facial scanning, Cerec, Exocad, 3D printing, and photogrammetry to streamline every phase of implant care with a literature based plan. He completes over 150 hours of continuing education annually, leads a local implant mentor group in New Mexico, advises several dental education platforms, and leads a group of instructors in live surgery training. Outside of dentistry, he enjoys mountain biking, rock climbing, snowboarding, and spending time with his wife and their two dogs.
