Suwanee Dental Care
4355, Suwanee Dam Road, Suwanee, GA 30024, USA

COURSE DESCRIPTION

Full mouth rehabilitation cases can feel overwhelming for many general dentists, yet they represent some of the most rewarding transformations for both patients and clinicians. This course explores a practical, collaborative approach to diagnosing, planning, and executing comprehensive restorative cases. Dr. Naz Majdi will illustrate her team approach of bringing the surgeon, prosthetic team, restorative dentist and lab to create predictable treatment plans while maintaining confidence in the process. Through real case examples and clinical insights, participants will learn how thoughtful sequencing, communication, and interdisciplinary collaboration can simplify complex cases and improve patient outcomes. This lecture is designed to help clinicians recognize opportunities for comprehensive care, improve case acceptance, and develop stronger partnerships that allow them to participate meaningfully in full-mouth rehabilitation cases.

COURSE OBJECTIVE

By the end of the course, clinicians will be able to:

- Recognize common indications for full mouth rehabilitation in general practice.
- Understand the role of interdisciplinary collaboration in comprehensive treatment planning.
- Identify key diagnostic steps for evaluating complex restorative cases.
- Develop predictable treatment sequencing.
- Improve communication with patients and referral partners to enhance case acceptance.
- Gain confidence in participating in full-mouth rehabilitation cases within their practice.

TARGET AUDIENCE

Dentists. No pre-requisites required

ABOUT THE SPEAKERS

Naz Majdi

DMD

Dr. Naz Majdi is dedicated to a comprehensive, collaborative approach to full-mouth rehabilitation. She earned her Doctor of Dental Medicine degree from the Medical College of Georgia in 2013 and went on to complete a competitive, surgically and prosthodontically focused residency in Hospital Dentistry at the University of Colorado in 2014. During her residency, she developed a strong clinical foundation in complex case management and interdisciplinary care.

As the founder of the Majdi Method at Suwanee Dental Care, Dr. Majdi partners closely with general dentists and specialists to design and deliver predictable full-mouth and implant-supported rehabilitations. Her philosophy emphasizes clear communication, thoughtful treatment sequencing, and building strong, trust-based relationships with referring providers to achieve both functional and esthetic excellence for patients.

Marko Tadros

DMD

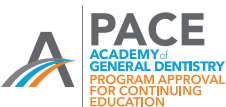

Dr. Tadros began his dental training at Georgia Regents University in 2010, earning his Doctorate in Medical Dentistry in 2014, where he received the "Best of the Best in Prosthodontics" award. That same year, he won 1st place in the esthetic contest at Digital Smile Design Miami Super Week. He then completed a three-year Prosthodontics residency at Augusta University and was involved with the Ronald Goldstein Center for Esthetic and Implant Dentistry. Dr. Tadros focuses on full-mouth rehabilitation, esthetic and implant dentistry, computerized guided surgery, 3D printing, and digital dentistry.
