

ABC Immediate Molars with PRF Application

6 CE

Immediates

PRF

Austin Lyman
DMD, MS

 **August 15th, 2026 | Saturday**
 **Lakewood Ranch Oral and Facial Surgery**
7170 University Pkwy, Lakewood Ranch, Sarasota, FL 34240, USA

COURSE DESCRIPTION

Join us for a 2 hour lecture and 4 hour hands on led by Oral and Maxillo Facial Surgeon Dr Austin Lyman.

Dr. Lyman will be discussing the overall benefits of Immediate Implant placement from a dentist and a patient perspective. He will touch on the indications for Immediate Implant placement, including the ability to gain initial stability in sockets with very little bone present. Dr. Lyman will teach practitioners how to identify type, A, B and C extraction sockets and discuss the techniques used in each situation to be able to predictably deliver immediate Implants.

COURSE OBJECTIVE

By the end of the course, clinicians will be able to:

- Learn the Surgical and Prosthetic Benefits of Placing Implants at the time of extraction.
- Identify how Initial stability can be gained in even molar sites with little to no Septum.
- Understand the role that Implant design plays in the ability to gain initial stability.
- Learn the Indications and contraindications of Immediate Implant placement.
- Learn the benefits of PRF and PRP.
- Understand how to draw blood and use centrifuge.
