Simplify Implant in Compromised Sites: Rethinking the role of bone with hybrid surface implants

2.5 CE

Dec 17,2026 | 6:30-9:30pm

Federal American Grill
8731 Katy Fwy Ste 150, Houston, TX 77024

Lecture

MEGA SCHOOL

COURSE DESCRIPTION

Patients don't want to go without teeth for any longer than they have to. Dentists are under more pressure than ever to provide less invasive and faster tooth replacement options. This lecture covers simplified implant workflows using the powerful trio of Blue Diamond Cuff implants, Plasma X Active, and the Immediate Molar Solutions kit. Combining these three tools can help address some of the biggest challenges in implantology, including accelerated loading of final prosthetics, predictable immediate implant placement, and supporting long-term peri-implant tissue health.

Join Dr. Mike Tran for an evening presentation and learn how these treatment options can simplify clinical workflows and support predictable outcomes. By the end of the evening, you will be equipped with new strategies to reduce risk factors associated with peri-implant disease, create biologically sound prosthetics, and stress-free immediate molar implant placement.

COURSE OBJECTIVE

- Describe implant design principles that support hard- and soft-tissue management.
- Identify strategies that may reduce the need for GBR.
- Discuss strategies to support long-term peri-implant tissue health.
- Explain key factors for implant stability and accelerated loading.
- Evaluate case selection for immediate molar implant placement.
- Apply a simplified workflow for immediate molar implant placement.

Who Should Attend?

General Dentists & Dental Specialists

COURSE SCHEDULE

06:30pm	- 07:00pm	Registration
07:00pm	- 09:00pm	Dinner & Lecture
09:00pm	- 09:30pm	Q&A

ABOUT THE PRESENTER

Mike Tran DDS, FAGD, FICOI

Dr. Mike Tran brings exceptional expertise to modern dentistry as a dual-trained clinician and dental educator. Growing up in Sugar Land, TX, he forged an uncommon academic path – earning dual Bachelor's degrees in Business Management and Spanish from Texas Tech University, followed by an MBA, before achieving his Doctor of Dental Surgery degree at Howard University. His surgical proficiency was refined through Advanced Education in General Dentistry training at UTHealth Houston's prestigious residency program.

COURSE DETAILS

Educational Method	Lecture
Credit Hours	2.5 CE
AGD Subject Code	690 Implants
Max Participants	15

TUITION

$99 Seat Reservation Fee
A $99 reservation fee is required to secure your seat. Upon completion of the program, attendees are eligible for a full refund of the reservation fee.

Optional Promotional Offer: In lieu of the refund, attendees may elect to receive a $120 MegaGen product credit. This promotional offer is separate from the continuing education program and is not a condition for receiving CE credit.
